Hi Steve,

Thanks. Looking forward to the discussion on the AE. Another item I would like to take care of possible next week is getting a letter from you confirming that EPA will be using the state's FY15 UIC grant funds to support a contractor charged with reviewing state-submitted aquifer exemption packages. We had discussed previously that EPA would be holding back these funds to help ensure adequate technical support and timely reviews on the packages submitted, but we need to have that documented in writing. My thought is that we can draft the letter and send it to you for review prior to Wednesday. If you have questions we can address them while we are there Wed.

Thanks,

David

Steve -

Thanks, yes that sounds good.

Mike

Mike and David,

Soon an aquifer exemption data package for Arroyo Grande oil field will be headed your way in preparation for the State's formal request for an SDWA exemption for the zones involving oil field operations. The public hearing is being scheduled now.

Seems to me that you and others at EPA might benefit from an overview presentation by the Division technical expert who was the lead on the assembly of the package.

Is this an item you would like to include in the agenda for the meeting on Wednesday?

Steve
